and custom colors

#500 COLLAR DUET AND MINI-COLLAR PROPEL/REPEL CONTAINERS

You decide what's best

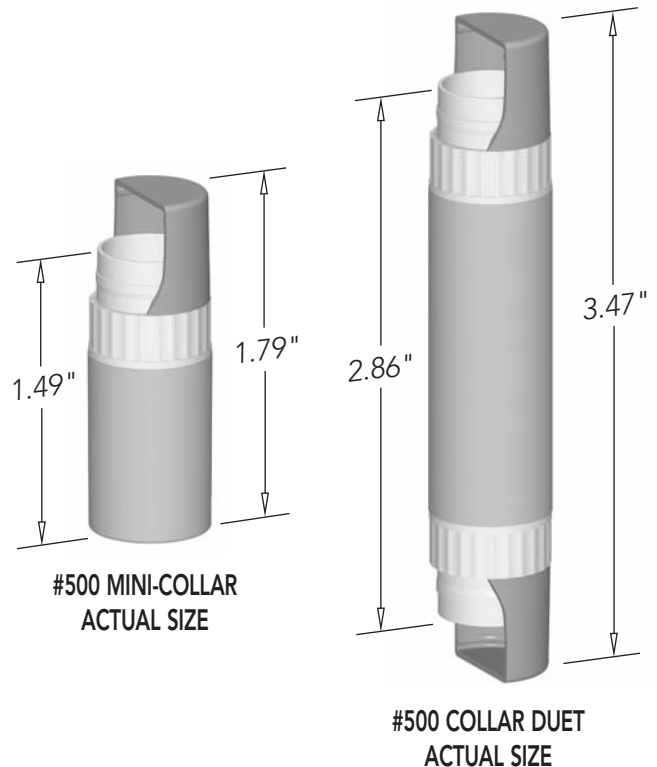

The #500 Mini-collar offers two options. By itself, it's a compact version of our #500 Collar container. Pair two together in our Duet and you have a truly unique container. Each side operates independently, so you can fill each with a different flavor or color.

Purchase Mini-collar components separately and complete two Mini-collars with a sleeve or one Mini-collar with a shell.

The #500 Mini-collar is 1.79" tall and has a .078 oz. (2.2 g) capacity. The #500 Collar Duet is 3.47" tall and has a .078 oz. (2.2 g) capacity per side and a .156 oz. (4.4 g) total capacity.

A break-away safety clip is available for use with lanyard cords.

* The #500 Mini-collar, #500 Collar Duet and lanyard cap protected by U.S. patents 5,842,802; D430,705; 6,241,408; D429,847

Federal Package offers complete filling services

We can fill with certified stock formulas, with pre-compounded product, or we can formulate in accordance with your specifications.
